Anand Ahire

Full Stack Developer | MERN Stack Developer | Software Developer

Pune, India, 411052 | +91 9356048168 | anandsahire8595@gmail.com | LinkedIn | GitHub

Professional Summary

Aspiring Full Stack Developer with hands-on experience building responsive, secure web applications using **MERN stack (React.js, Node.js, Express.js, MongoDB)** with **TypeScript, Next.js**. Skilled in RESTful API design, **JWT/OAuth authentication**, and **AI integration** using **Gemini API**, with a track record of improving performance and reducing development time across multiple projects. Strong problem-solving foundation in **Java** and **Data Structures & Algorithms**. Seeking an entry-level **Software Engineer** or **Full Stack Developer** role to build scalable, real-world solutions.

Technical Skills

Frontend:	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Redux Toolkit, Context API, Tailwind CSS
Backend & APIs:	Node.js, Express.js, Next.js, RESTful APIs, JWT & OAuth Authentication
Databases:	MongoDB, MySQL, Firebase Realtime Database
AI:	Gemini AI, AI-Powered Feature Development
Languages:	JavaScript, Java, Python
Tools & Platforms:	Git, GitHub, Firebase, Vercel, Render, Postman, VS Code
Concepts:	Data Structures & Algorithms, OOP, OS, CN, DBMS, REST Architecture, Agile/Scrum, SDLC

Experience

Full Stack Developer Intern (MERN) | *Paarsh Infotech* 01/2026 – 06/2026 | Nashik

- Spearheaded **full-stack** web features using React.js, Node.js, and Express.js, improving functionality across **5+ modules**.
- Enforced **JWT-based authentication** and role-based access control, securing user access for 100+ application endpoints.
- Designed and built **responsive UI components** and incorporated RESTful APIs across 5+ modules, reducing API response handling time by **30%**.

Web Developer Intern | *Next Level Computech Solutions* 12/2024 – 02/2025 | Nashik

- Enhanced **web application** features using React.js and JavaScript (ES6+), improving user experience across **4+ modules**.
- Engineered reusable **React components** and applied dynamic UI functionality, reducing development time by **20%**.
- Collaborated on **3+ React-based projects**, maintaining clean code standards and delivering fully responsive design.

Web Developer Intern | *Codesoft* 07/2024 – 08/2024 | Remote

- Developed responsive **web pages** using HTML5, CSS3, and JavaScript (ES6+) following modern web design standards.
- Optimized page load performance by refactoring CSS and minimizing redundant **DOM** operations by **25%**.
- Executed **JavaScript logic** and DOM manipulation for interactive features across multiple pages.

Projects

ExamEdge AI | *React.js, Node.js, Express.js, MongoDB, Gemini AI, Tailwind CSS* **Live Demo | GitHub**

- Built an AI-powered notes generation platform using **Gemini API**, enabling students to generate intelligent study notes.
- Incorporated **JWT and Google OAuth authentication** for secure login, signup, and session management.
- Architected notes history management and download feature, allowing users to save, view, and export **AI-generated notes**.
- Merged **payment gateway** and built a fully responsive UI using React.js and Tailwind CSS, deployed on Vercel.

Interview-Agent-AI | *React.js, Node.js, Express.js, MongoDB, Gemini AI* **Live Demo | GitHub**

- Engineered an intelligent **mock interview** simulator for technical and HR screening scenarios powered by Gemini AI.
- Blended speech processing and **real-time AI evaluation** to deliver contextual feedback after each response.
- Generated structured assessment reports highlighting communication, problem-solving skills, and improvement areas.
- Enforced secure **JWT authentication** and RESTful APIs with Node.js and Express.js for backend operations.

Social Media Addiction Tracker | *Android Studio, XML, Java, MySQL, Firebase* **Live Demo | GitHub**

- Developed a **digital wellness** application to monitor screen-time patterns and user activity.
- Incorporated **usage tracking, mood logging, and gamification rewards** with real-time Firebase notifications.
- Designed responsive and interactive dashboards using Java and Firebase to visualize addiction trends.
- Built **secure backend modules** with Java and MySQL for analytics, reporting, and personalized insights.

Education

B.E. in Computer Engineering | Savitribai Phule Pune University 2022 – 2026 | CGPA: 7.51 | Nashik
HSC (Science) | Maharashtra State Board 2021 – 2022 | 77.83% | Nashik
SSC | Maharashtra State Board 2019 – 2020 | 78.60% | Nashik

Certifications

- **Full Stack Development** – The Kiran Academy
- **Full Stack Development** – Anudip Foundation
- **NASA** – Galactic Problem Solving
